

# Vinay Reddy Oppuri

oppurivinay25@gmail.com • +91-7569972659 • Portfolio • GitHub • LinkedIn

## Summary

Full Stack Developer specializing in building robust, scalable web applications and AI-integrated platforms. Proficient in architecting end-to-end solutions using Next.js, TypeScript, Node.js, and PostgreSQL, with hands-on experience integrating LLMs (Gemini AI) for predictive analytics and intelligent agent workflows. Passionate about clean backend architecture, type-safe API design, and crafting high-performance user interfaces.

## Technical Skills

**Languages:** C, C++, JavaScript, TypeScript, Python

**Frontend:** React, Next.js, HTML5, CSS3, Tailwind CSS, shadcn/ui

**Backend:** Node.js, redis, tRPC, REST APIs, Authentication Systems

**Databases:** PostgreSQL (NeonDB), MongoDB

**ORM:** Drizzle ORM

**Tools & DevOps:** Git, GitHub, Docker, Vercel, Turborepo, Inngest

## Experience

### Website Development Team Member

*IIT Raichur*

*Official Website — [iiitr.ac.in](http://iiitr.ac.in)*

- Contributed to development and maintenance of the official institute website serving thousands of students and faculty.
- Leading migration of static pages to a modern Next.js App Router architecture to improve performance and SEO.
- Developing the Training & Placement Cell portal ([tnp-iiitr.vercel.app](http://tnp-iiitr.vercel.app)) using Next.js and Tailwind CSS to streamline student–recruiter interactions.

## Projects

### Mono

[Next.js, TypeScript, tRPC, PostgreSQL, Drizzle ORM, Better Auth, Gemini AI]

- Developing an AI agent workspace that helps users automate repetitive workflows by creating task-specific assistants with custom instructions.
- Built authenticated CRUD workflows for agents and persistent chats using Next.js, tRPC, PostgreSQL, and Drizzle ORM, improving data reliability and user-specific access control.
- Integrated Gemini AI to generate context-aware responses from saved conversation history, reducing context switching and manual re-prompting for recurring tasks.
- Designed a responsive dashboard with search, pagination, reusable UI components, and real-time query updates to make agents and chat histories easier to manage at scale.

### Inzite

[Next.js, React, TypeScript, PostgreSQL, Drizzle ORM, Gemini AI, Inngest, Docker]

- Architected and shipped a full-stack AI-powered startup intelligence platform enabling founders and analysts to perform real-time market analysis and competitive research.
- Built a responsive, interactive dashboard with Next.js App Router and Tailwind CSS, featuring dynamic data visualizations for market trends and competitor benchmarking.
- Integrated Google Gemini AI to power natural-language trend forecasting, competitive summaries, and actionable strategic insights from raw startup data.
- Designed and implemented a type-safe PostgreSQL schema with Drizzle ORM on NeonDB; automated background AI jobs using Inngest for reliable async processing.

## Education

### B.Tech in Artificial Intelligence & Data Science

Indian Institute of Information Technology, Raichur

Expected 2027

**JEE Mains 2023:** Ranked in top 4.5% nationally
